Hard Skills

ReactJS | HTML | CSS/SASS

Node.js | GraphQL | Express.js

Next.js | Jekyll

TinaCMS | WordPress

Chrome DevTools | Screen Readers

Python | PHP | MySQL

Soft Skills

Project Management

Time Management, Problem-Solving

Teamwork, Communication With Teams and Clients

Technical and Creative Writing

EXPERIENCE

Other People Magazine   Website | GitHub

Lead Frontend Developer | JUN 2021 – PRESENT | San Diego

- Rebuilt entire website in March in Next.js to switch from a recently deprecated CMS to TinaCMS, maintaining codebase size with around 52% faster performance metrics.
- Created API data endpoints to enable GraphQL connections for TinaCMS and developed an accurate content and visual-based product recommendation system using it.
- Communicated with designers and clients to develop timely, reusable products for displaying experimental literature natively on the website through JavaScript.
- Set up documentation website to onboard new developers, how to maintain, reuse, and extend the many projects, and archiving major decisions made over time.

Projects

Authentication and Analytics Web Server

Backend Developer | APR 2021 – JUN 2021

- Developed a user-authenticated website in PHP/MySQL over an Apache server with configuration masking alongside two developers.
- Constructed a RESTful API using Express.js to collect web analytics from visiting users and analyzed this data to find performance bottlenecks on specific server webpages.
- Served pages and handled HTTP requests in Python, Java, and C through common gateway interface programming.

Pomodoro Timer   App | GitHub

UI/UX Design, Frontend | JAN 2021 – MAR 2021

- Designed a keyboard-accessible pomodoro task system in an eight-person programming team using HTML/CSS/JS.
- Integrated language localization in English, Spanish, Chinese, and Korean each with screen reader support.

Education

University of California, San Diego   **2019 – DEC 2022**
B.S. Computer Science, Minor in Creative Writing
GPA: 3.875
